

United States Department of Agriculture

Welcome to Session A-5

Transparent Quality Reporting in the Integration of Multiple Data Sources

Chair: Mary Bohman

Economic Research Service, USDA

Background: Interagency Council on Statistical Policy

- Recognized the increasing importance of non-survey data sources in production of key statistical series
- Question: Transparent ways in which to discuss the quality of these data with our key stakeholders?

Result: FCSM working group

This session:

Overview and selected results to date
